<p>DJ Elliot</p> 	Narrator	NA	Widows Peak/Tan	

### Mic Assistance Instructions

Fig. 1.1

1. Wipe down the skin in front of the ear, behind the ear, and the base of the neck with Skin Prep. Allow the wet spots to dry before adding tape. You may want to fan the prepped area with your hand to speed dry time.
2. Bend the wire to the shape of the ear on the actors' preferred side as seen in Fig. 1.1

Fig. 1.2

3. Actors Mic'd on the Ear: Tape in at least 3 locations as seen in Fig. 1.2: (a) in front of the ear on extended wire (Not the Mic Element!), (b) right behind the ear, (c) and the base of the neck **\*C is not shown in Fig. 1.2\***
4. Actors Mic'd in the Widows Peak: The end of the mic will come out just over the widow's peak on the forehead, allow the wire to travel back under their hair after it is parted, directly down to the back of the neck. You will tape just behind the mic element at the widowspeak on the forehead, keep the tape as close to the hair as possible.
